

TOTEM 45x200 (3 sides)

INSTRUCTIONS FOR TOTEM GRAPHICS

To create the correct file it is important to create the graphic using the template downloadable here: http://www.florenceheritech.com/download/FH2020_TotemTemplate_45x200.pdf

If you are unable to use the model, the size of the elaborate must necessarily be 45x200h cm

The font to be used is the Century Gothic 30-36pt

Be careful not to use the entire length of the totem but leave a good bottom and top margin as per model. (ex: lower 70 cm, upper 15 cm)

The file must be saved in 1:1 scale and must not be resized.

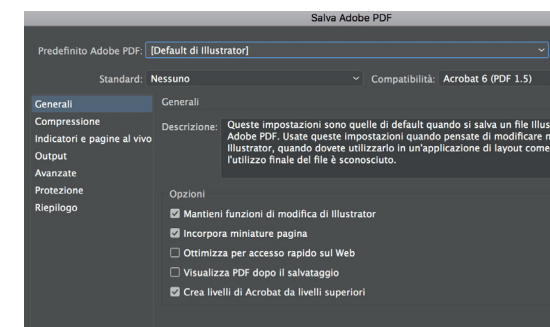

1

Download the Template from the link.

You are building one of the three sides of the totem

2

To save:

Save the file in PDF format, being careful to save it in high resolution (300 dpi) in typographic quality.

DIMENSIONS OF THE TEMPLATE

The size of the template document must remain unchanged.

45 cm x 200cm
